Education

2021/01–2025/12
Montreal, Canada

- 📖 **Doctor of Philosophy (PhD) – McGill University** in Software Engineering
 - Supervisors: **Prof. Gunter Mussbacher** and **Prof. Dániel Varró**.
 - Thesis title: *Domain-Driven and Consistent Integration of Large Language Models – An Input-Output Perspective*.

2016/09–2020/12
Montreal, Canada

- 📖 **Bachelor of Software Engineering – McGill University**
 - GPA: **3.99/4.0** (Dean's Honour List).

Research Experience

2025/05 – 2025/06
Halifax, Canada

- 📖 **Visiting Researcher – Dalhousie University**
 - Visiting the Software Maintenance and Analytics Research Team (SMART) at the Faculty of Computer Science.
 - Supervisor: **Prof. Tushar Sharma**
 - Topic: *Non-functional Evaluation of Large Language Models for Software Design*

2023/10
Budapest, Hungary

- 📖 **Visiting Researcher – Budapest University of Technology and Economics**
 - Visiting the Critical Systems Research Group (FTSRG) at the Department of Artificial Intelligence and Systems Engineering.
 - Supervisor: **Prof. Oszkár Semeráth**
 - Topic: *Certifying the Robustness of Graph Neural Networks using Abstract Interpretation Techniques*

Industrial Experience

2021/09 – present
Toronto, Canada
(part-time)

- 📖 **Machine Learning Engineer – Aggregate Intellect**
 - Collaboration through a Mitacs Accelerate grant.
 - Supervisor: **Dr. Amir Feizpour**
 - Maintaining the open-source library *Sherpa AI* for orchestrating LLM agents with software models.
 - Designed a state machine-based framework for integrating domain-specific practices into LLMs.
 - Led the end-to-end development of multiple customized LLM-based applications addressing diverse client requirements.

2024/05 – 2025/04
Toronto, Canada
(part-time)

- 📖 **Research Associate Intern – Huawei Canada**
 - Research group: Intelligent Testing Lab at Huawei Waterloo Research Center.
 - Supervisors: **Dr. Ou Wei** and **Dr. Bingzhou Zheng**
 - Enhanced an LLM-based pipeline that transforms natural language requirements into testing models, substantially increasing production acceptance rates by over 20%.
 - Proposed and implemented a novel approach to provide guarantees on the consistency of LLM-generated models with domain-specific constraints.
 - Contributed to an internal tool to automatically evaluate the quality of LLM-generated models.

2018/05 – 2018/08
Montreal, Canada

■ **Game Developer Intern – Behaviour Interactive**

- Participated in the development and maintenance of a mobile game in Unity.
- Solved multiple platform-dependent bugs for iOS and Android legacy bugs.
- Worked on the design and implementation of new game levels.

Teaching and Supervision

Teaching

2021/01–2025/12
Montreal, Canada

■ **Teaching Assistant – McGill University**

- **ECSE 223 Model-Based Programming** (undergraduate, 9 times).
- **ECSE 439/539 Software Language Engineering** (graduate, 2 times).
- **ECSE 326 Software Requirements Engineering** (undergraduate, 1 time).
- **ECSE 429 Software Validation** (undergraduate, 2 times).
- Instructors: Gunter Mussbacher, Dániel Varró and Marwan Kanaan.
- Duties: Teaching tutorials, grading assignments and examples, holding office hours, and preparing course project materials.

2022/11
Atlanta, Georgia
(Online)

■ **Guest Lecturer – Georgia State University**

- Course title: **Advanced Deep Learning Analytics**.
- Instructor: Kulsoom Abdullah.
- Talk title: Graph Neural Networks and Their Applications.

2017/09–2020/12
Montreal, Canada

■ **Course Mentor – McGill University**

- **ECSE 223 Model-Based Programming** (undergraduate, 2 times).
- **ECSE 321 Intro to Software Engineering** (undergraduate, 1 time).
- **MATH 140 Calculus 1** (undergraduate, 1 time).
- Instructors: Gunter Mussbacher, Dániel Varró and Sidney Trudeau.
- Duties: Holding mentor sessions, answering questions, grading assignments, and developing an automated grading framework for course assignments.

Supervision

2024/09 – present
Montreal, Canada

■ **Master Student Mentor – McGill University**

- Co-supervised an undergraduate student in a research project.
- Continuing mentoring this student after he completed his undergraduate degree and pursued graduate studies on the same topic.
- Project topic: *Improving LLM Code Generation with Model-Driven Techniques*.

2024/09 – 2025/04
Montreal, Canada

■ **Design Project Co-supervisor – McGill University**

- Co-supervised a team of 4 undergraduate students in a design project.
- Project topic: *Structured State Machine Modeling with Large Language Models*.

2022/09 – 2024/09
Montreal, Canada

■ **Master Student Mentor – McGill University**

- Co-supervised 2 master students in their research projects and master's theses.
- Project topic: *Automated Generation and Evaluation of Domain Models with Large Language Models*.

Academic Services

Organizing Committee Member

2025 ➤ **Model-Driven Requirements Engineering Workshop (MoDRE)**

Program Committee Member

2026 ➤ **The 40th Annual AAAI Conference on Artificial Intelligence (AAAI)**

- **The 3rd ACM International Conference on AI Foundation Models and Software Engineering (FORGE)**
 - **Int'l Conference on Fundamental Approaches to Software Engineering (FASE)**
Subreviewer
- 2025 ➤ **International Workshop on Multi-Agent Systems using Generative Artificial Intelligence for Automated Software Engineering (MAS-GAIN)**
- **Large Language Models for Software Engineering Workshop (LLM4SE)**
- 2024 ➤ **Int'l Conference on Model Driven Engineering Languages and Systems (MODELS)**
Poster track
- 2024 ➤ **Large Language Models for Model-Driven Engineering Workshop (LLM4MDE)**
- 2023 ➤ **Int'l Conference on Fundamental Approaches to Software Engineering (FASE)**
Subreviewer

Journal Reviewer

- **IEEE Transactions on Software Engineering (TSE)**
- **The Journal of Systems and Software (JSS)**
- **Empirical Software Engineering (EMSE)**
- **ACM Transactions on Software Engineering and Methodology (TOSEM)**
- **Software and Systems Modeling (SoSyM)**
- **Expert Systems with Applications (ESWA)**
- **Information and Software Technology (IST)**
- **Information Processing and Management (IPM)**

Student Volunteer

- 2022 ➤ **Int'l Conference on Model Driven Engineering Languages and Systems (MODELS)**

Awards

- 2025 ➤ **ACM SIGSOFT Distinguished Paper Award** at the International Conference on Model Driven Engineering Languages and Systems (MODELS)
- **Bronze Medal in the ACM Student Research Competition** at the International Conference on Software Engineering (ICSE)
 - **Graduate Research Enhancement and Travel Award** from McGill University
- 2023 – 2025 ➤ **Accelerate Award** from Mitacs
- 2022 – 2025 ➤ **FRQNT B2X Doctoral Scholarship** from Fonds de Recherche du Québec
- 2021 – 2024 ➤ **McGill Engineering Doctoral Award (MEDA)** from McGill University
- 2019 ➤ **Summer Undergraduate Research in Engineering Award** from McGill University
- 2018 – 2020 ➤ **McGill Engineering Faculty Award** from McGill University
- 2017 – 2020 ➤ **Dean's Honour List** from McGill University

Research Publications

Journal Articles

- 1 **B. Chen**, K. Marussy, O. Semeráth, G. Mussbacher, and D. Varró, “Certifying robustness of graph convolutional networks for node perturbation with polyhedra abstract interpretation,” *Data Mining Knowledge Discovery*, (to be published),
- 2 J. A. H. López, **B. Chen**, M. Saad, T. Sharma, and D. Varró, “On inter-dataset code duplication and data leakage in large language models,” *IEEE Transactions on Software Engineering*, vol. 51, no. 1, pp. 192–205, 2025.
- 3 F. Khan, **B. Chen**, D. Varró, and S. McIntosh, “An empirical study of type-related defects in python projects,” *IEEE Transactions on Software Engineering*, vol. 48, no. 8, pp. 3145–3158, 2021.
- 4 O. Semeráth, A. A. Babikian, **B. Chen**, *et al.*, “Automated generation of consistent, diverse and structurally realistic graph models,” *Software and Systems Modeling*, vol. 20, no. 5, pp. 1713–1734, 2021.

Conference Proceedings

- 1 K. Ahmed, J. Song, **B. Chen**, O. Wei, and B. Zheng, “MCeT: Behavioral model correctness evaluation using large language models,” in *ACM / IEEE 28th International Conference on Model Driven Engineering Languages and Systems (MODELS)*, 2025, Grand Rapids, USA, October 5-10, 2025, IEEE, 2025, pp. 84–95, (Acceptance rate: 23%) 🏆.
